- 6000K (Kelvin color temperature)
- plugs directly into a standard 120v wall outlet.
- draws less than 15 amps
- variable speed control
- reversible rotation
- all systems are assembled with stainless steel external hardware
- adjustable tilt ideal for target lighting

**PSC-20/AER/850**

### DESCRIPTION

The Silverbeam Cirrus 360 Rotating Searchlight is the latest in Phoebus Manufacturing's innovative, high performance line of quality lighting products. The newest member of our popular SILVERBEAM line of searchlights is ideal for rental or advertising applications. The Silverbeam Cirrus is fully self-contained and weather tight, featuring continuous 360° of motorized rotation and adjustable head tilt.

Built with integrity, the Cirrus is engineered for Ushio's revolutionary "EmArc" family of enclosed arc lamps. Powered by a medical grade, integral electronic ballast the SMH-850w/D1 arc lamp delivers output approaching a 2KW Xenon, plugs directly into a standard 120 volt wall outlet and draws less than 15 amps. The Cirrus is designed for years of quiet, dependable, maintenance-free service. Its chassis, housing, and base enclosure are constructed of steel and rustproof aluminum and coated with a durable, powder coat finish designed to withstand the severest of outdoor conditions. The 20" model utilizes a corrosion resistant, electroformed, nickel-rhodium reflector. Manufactured with space age technology throughout, the Silverbeam Cirrus can be expected to operate with outstanding efficiency throughout the lifetime of the unit. All lamps maintain a daylight bright color temperature throughout their rated 1000 hour lamplife.

Leading the way, with quality craftsmanship you expect from a 30 year leader in special event lighting, the Phoebus Manufacturing Silverbeam Cirrus Rotating Searchlight offers reliability, affordability, and years of dependable service.
